

earbud grips

Our patented, gecko-inspired **grips for all wireless earbuds, including Apple® AirPods®** provide the firmest, most comfortable grip on the market, even on sweaty and oily skin.

Stay in control.® Whether you're on your bike, running, or simply working on your laptop, you'll never need to worry about your earbuds slipping again. The anti-slip grip pads are comfortable and easy to apply. Never lose an earbud again.

192% more grip on wet or oily skin.

Earbud grips for any ears.

Not all earbuds always fit perfectly into our ears. We developed the grip pads with our patented anti-slip microstructures to keep earbuds in place and prevent them from falling out, even when sweaty. And they fit perfectly and smoothly in their charging case.

Customizable. Uses 3 Pads Per Earbud for Maximum Grip

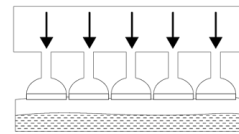

Our Technology

Setex patented microfibers are designed like geckos' toe hairs, or setae, to provide a comfortable and secure grip. Even on sweaty and oily ears, our technology provides 192% more grip.

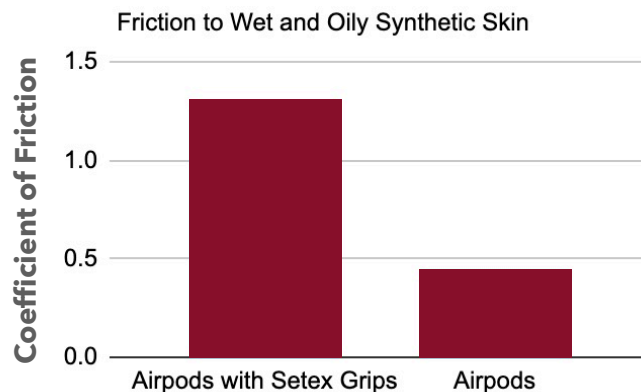

Thousands of mushroom shaped fibers mimic geckos' toe hairs - i.e. setae.

Flexible Setex fibers provide soft, comfortable contact to skin.

Setex's microstructures provide a secure grip in wet and oily conditions.

Our Setex grip product materials passed ISO 10993-10 Certification - Biological Evaluation of Medical Devices, Part 10: Tests for Irritation & Skin Sensitization.
